“ To my cousin,

I love you and I will miss you. Growing up I always looked up to you. You were like the cool older brother I wanted to be like. You always found a way to make our family laugh, especially me. Only very few people in this world can make me laugh hysterically like you could. I wish I could have been around more, been there for you more. But I will have to find solace in the fact that you are no longer fighting those silent battles and are now at peace. I will never forget you.

*Love you cousin,
Richard Lee*
