“ Ray,
You came into my life when I was about 6 years old. I will never forget opening the door to you as you were picking up Vel for a date. You scared the crap out of me, and I wasn't too sure about the man that was picking up my sister, until I saw that beautiful gold metal flake Corvette you drove. As time went on, I was fortunate to learn just how fun and funny you were, you've had a special place in my heart ever since. You taught me so much about so many things, but I think my taste in music most definitely came from you. So many years and so many memories, you trying to teach me how to sing, sorry I was a lost cause. Family gatherings are not going to be the same without you, you always brought the music, and the fun! You remain in my heart until we meet again. Love you brother.
